LAUDING ROOSEVELT YOUNG MEN TAKE UP BANNER OF DEMOCRACY; LAW LEADER

Our Town

By J. B. White

No portion of the President's recovery program was more vitally essential than the creation of the Credit Banks for Industry, to supply working capital for small business enterprises. None had seemed to present more difficulties. Strong men, who have displayed deep confidence in President Roosevelt, were seriously concerned with the intricacies of the task. Seemingly apart from the anxiety of the country's leading bankers, commentators usually cognizant of their conception of governmental limitations unloosed a veritable avalanche of apprehension.

Yet as a result of painstaking though prompt preparation, of the type which it can be noted has characterized each of the President's multiple movements to restore normal conditions, the plan appears to be relatively simple. True, strange to say, it constitutes an innovation, even in the first industrial country on earth, but there exists for it a noteworthy precedent.

The prime difficulty was to avoid unfair competition with or injury to the existing banking structure, which no individual had ever done more to resuscitate. It now develops that the new agencies afford no competition at all. On the contrary, they very greatly strengthen the structure. They fill in a sorely aching gap.

The problem involved extension to small and medium-sized industries of more than short-term credit of less than 1 year, which is a function of commercial banking and less than long-term credit, which in normal times is handled by investment banking houses on a basis of more than five years. So the limit was fixed at 5 years, and such facilities are known to bankers as intermediate credit.

The agricultural credit banks have been supplying intermediate credit to farmers, but there were no organizations well organized for meeting the needs for intermediate credit in the industrial field. It remained to establish such agencies with the least possible delay, with the minimum of confusion, and without creating new governmental machinery. All of which is accomplished in the measure now before congress, with the added feature that the Government itself would assume no liability.

CHAMBER OF COMMERCE BANQUET MONDAY NIGHT

The annual banquet of the Chamber of Commerce will be held in the basement of the Methodist church Monday night April 9.

The banquet will be open to men and women and a small charge of 50c is being made for each plate. The committee in charge is selling tickets this week for the banquet.

A. C. Bull of Austin will be the speaker for the banquet hour. Les Akers, writer and civic leader who scheduled to speak, will be unable to attend.

Tennessee Legislator Visiting In Cameron

D. M. Coleman, member of the Tennessee Legislature, is in Cameron visiting his cousin, J. W. Coleman, who is critically ill at his home here.

Mr. Coleman is blind and his career has been similar to that of Thomas P. Gore of Oklahoma. He stands high in the political circles of his state and has represented his district in Cattanooga in the Legislature for a number of years.

He is a musician and on Wednesday afternoon went to the Methodist church with friends to play the pipe organ. He expects to be in Cameron for some days.

SMITH IS MARSH'L

By a majority of two to one the proposed bond issue for extending sewer lines in the city was passed by the voters at the general election held here Tuesday.

The vote, as usual was small, only 273 votes being accounted for in the toll on the bond issue. There were 182 votes for the issue and 91 against. The bonds are to be deposited with the federal government in exchange for funds to be loaned for sewer extension. The amount will be slightly in excess of \$29,000. This marks another step of progress in the administration of Mayor Smith, noted for its successful efforts to reduce government costs and finance the city in the face of the depression without borrowing from the banks.

Gene Smith, colorful and widely known officer, again heads the police force of the city. He defeated Luther Roberts, the present incumbent in the run off primary in March. He has been twice elected to the place of City Marshal. Smith is a picturesque character. He sprang from hardy Texas pioneers and was born in the old town of Gonzales and lived for a while at Lockhart in the heart of the cattle country. As a boy he rode the ranges and grew up in the romantic atmosphere of the Del Sol where Emerson Hough got his story for "North of 36" being a tale of old Jim Nabours and the first herd of Texas cattle driven to Abilene. Smith is a man of strong impulses in times of danger and enjoys the confidence of the people.

Mr. Smith will ask the Council to give him the privilege of naming his deputies. He declares he is responsible to the people and wants a change and believes that the new deal should give him assistants responsible to him and the people.

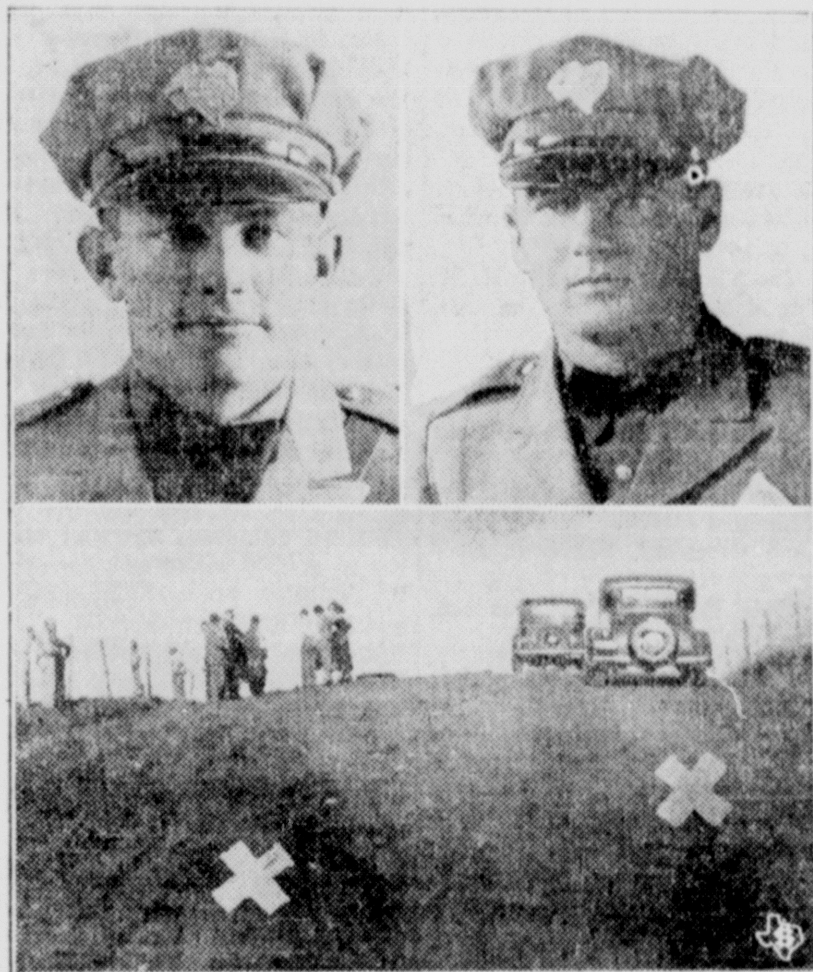

Other officials who make up the new municipal picture are Leland Green and Bob Terry, aldermen and W. H. Stafford, assessor and collector of taxes.

AN APOLOGY

On Saturday night, March 24, I neglected to bring my car inside the building. Although parked at the curb in exact accord with city ordinance, it nevertheless proved an obstruction and was crashed into by a passing driver. I wish to apologize for leaving my machine in the way like that. In the future I will try to remember the streets belong to those who desire to use them from curb to curb. Yesterday I paid \$9.10 repair bill. This amount is so small in comparison to my error in parking my car on the street that I desire to invite the unknown party, who no doubt had his car damaged, to come forward and let me pay his repair bill also. The more I could pay for this error, the more abundant would be my apology.

Picture Story of Double Murder of Patrolmen

Two state highway patrolmen met death in the line of duty Sunday afternoon near Grapevine, Texas. Approaching a parked car, E. B. Wheeler of Fort Worth and H. D. Murphy of Alto were shot down by bullets from the car, which was occupied by two men and a woman. The killers were thought to be Clyde Barrow, Bonnie Parker and a companion. In the photos above Murphy is upper left, Wheeler is upper right, and the scene below is where the officers were killed, the two crosses marking where they fell. (Texas News Photos.)

Wheeler & Woolsey Bring Extravaganza of Tomfoolery in "Hips, Hips, Hooray" to Cameron Theatre On Sunday and Monday April 8 and 9

A gay and hilariously insane saga of two slap-stricken heroes who let the world laugh with, for and at them while they peddle flavored lipsticks, participate in a cross-country automobile race, make love to beautiful girls and wise-crack gaily, is "Hips, Hips, Hooray," RKO-Radio Pictures' musical extravaganza starring Bert Wheeler and Robert Woolsey, with Ruth Etting, Dorothy Lee and Thelma Todd featured.

This grand extravaganza of tomfoolery such as only Wheeler and Woolsey can give will open Sunday at the Cameron Theatre and run through Monday, April 8 and 9.

"Hips, Hips, Hooray" combines laughter, music and gorgeous girls in its tomfoolery. Wheeler and Woolsey are seen as cosmetic salesmen whose office is in the city street. By a stroke of luck, they find themselves promoting the sale of Miss Frisby's beauty preparations. Soon, Woolsey is falling in love with the languorous Miss Frisby, Wheeler is falling in love with her assistant, Daisy, and the world is falling in

love with flavored lipsticks.

Their luck runs smooth until George Meeker, the concern's manager, jilts his sweetheart Ruth and forms designs on Daisy. He frames the boys to get rid of them, making them the innocent thieves of \$10,000. To escape detection they flee in a racing car which is entered in a cross-continental race. The climax is crammed with incidents said to set an audience howling.

"Hips, Hips, Hooray," features an aggregation of beautiful blondes, brunettes and redheads selected for their beauty of face and figure which are shown in the spectacularly glittering dance sequences. With Ruth Etting, the girls also participate in vocalizing the current popular melodies, "Keep Romance Alive," "Keep on Doing What You're Doing" and "Tired of It All."

Harry Ruby and Bert Kalmar composed the music for "Hips, Hips, Hooray," and collaborated with Edward Kufman on the scenario. Mark Sandrich directed, and Dave Gould staged the dances.

Phyic Reader Arrested in Arizona for Swindling Burlington Woman of \$1500

Mrs. W. H. (Harry-Catherine) Bradshaw, Phyic reader, was arrested in Phoenix Arizona late Wednesday on information furnished by Sheriff Leonard Blaylock.

The woman is charged with swindling a prominent Burlington woman in the amount of \$1500. She obtained the money in cash claiming she could make an advantageous investment that would return several times the amount obtained.

Immediately after the case was

reported to the sheriff he obtained a photo from printed literature and broadcast the swindle by radio and sent out mail and telegrams and telephone calls to western authorities. It was found through a telephone call in Los Angeles that she would go west.

Sheriff Blaylock received a wire from chief of police in Phoenix about 7 p. m. Wednesday which said the woman had been arrested there. A felony warrant was issued and the woman will be extradited and

brought back to Milam county for trial.

Sheriff Blaylock when he obtains extradition papers at Austin, will leave for Phoenix to bring the woman back.

Mrs. Bradshaw advertises herself as "The Great Siona." She is reported to be traveling with her husband in a Pontiac coupe with a fine house trailer. The Sheriff said that parties in Rosebud had been swindled in a like manner as the woman at Burlington.

Democratic hopes were high and party support strong here Tuesday night when the Young Democrats launched their Club with the election of permanent officers and adoption of a constitution.

A resolution endorsing President Roosevelt declared his administrative achievements to be the greatest service ever rendered by a president in the history of the United States.

Roy Law, popular young Democrat, will lead the organization for its first year, as president.

The key-note speech of the convention was delivered by T. S. Henderson, eloquent veteran of many Democratic campaigns. He lends his support to the efforts of the Young Democrats who are to have the responsibility of the party control in the years to come. Opportunities are greater now for service than were given in other days, he said. Young Democrats have the advantage of greater knowledge and are living in a day of greater responsibility. Mr. Henderson was given generous applause as he lifted the spirits of the young men and sent them on eager for the job ahead.

Stanton Dossett, vice president of the Young Democratic Club of North Texas and a member of the 6th Congressional District Committee under the National Committee, called the meeting to order and presided as temporary chairman. Mr. Dossett has been asked to organize Milam county and a number of adjoining counties. He will serve as secretary in the Milam County Club. These clubs, he said are sponsored by the National Committee. They do not endorse the candidacy of any one for public office. (See DEMOCRATS on page 4)

Plan Damming of Pecos River With PWA Funds

Work is soon to begin on the \$2,600,000 dam and hydro-electric power plant in the Pecos Valley, Texas, supplying water for 14,000 irrigated acres and power to nearby towns and oil fields. PWA funds will be used in construction. The dam will be 100 feet high, 25 feet thick at the crest. The lake formed will be 80 feet deep and have a 50-mile shoreline. The busy waters of the famous Pecos river have caused dissension for years between New Mexico and Texas farmers. Texas growers, on the lower reaches of the river, claimed that New Mexico had taken most of the water before it could flow into Texas. The dam is expected to solve the problem. Above is an artist's sketch of the project. (Texas News Photos.)

GRAVES TELLS ABOUT GUARANTEE ON BONDS

P. S. Graves, secretary-treasurer of the Cameron National Farm Loan Association, received word today from Wm. I. Meyers, Governor of the Farm Credit Administration, Washington, D. C. that Federal land bank loans and land bank commissioner's loans will be made in the future through the Federal land bank in bonds of the Federal Farm Mortgage Corporation, which bonds are guaranteed by the United States Government both as to principal and interest, which will be at the rate of 3 1-4 per cent per annum for the bonds to be issued at this time. These bonds will take the place of the cash distribution in the disbursement of the unclosed loans previously approved by the Federal land banks.

The bonds of the Federal Farm Mortgage Corporation, according to the statement by Governor Meyers, will have behind them not only the unconditional guarantee of the Federal Government as to both principal and interest, and the capital of the Federal Farm Mortgage Corporation amounting to about \$20,000,000 but

also the consolidated bonds of the Federal land banks issued in exchange for the bonds of the Federal Farm Mortgage Corporation and the mortgages accepted by the land bank commissioner as security for loans.

Governor Myers assured Secretary Graves that the Federal Farm Mortgage Corporation bonds will be an attractive investment. "They will be as readily marketed as bonds of the United States Government and they will be quoted in all of the principal markets," he continued. "Holders who have to dispose of these bonds should not sell them without first ascertaining their real market value."

The Governor particularly stressed the fact that country bankers probably will be large investors in these securities since the creditors of farmers who are being refinanced may not all be in the position where they can hold the bonds so acquired and will find it necessary to sell them. Secretary Graves states that these bonds, which will be tendered to farmers' creditors in payment of the refinanced indebtedness, are "exempt from all Federal, State, municipal and local taxation, except surtaxes and estate, inheritance and gift taxes. They are lawful security for fifteen day borrowings by member banks of the Federal Reserve Sys-

tem. They are also lawful investments for all trust, public and fiduciary funds of which the deposit or investment is under the authority or control of the Government. The payments of the interest on these bonds and the repayment of their principal are guaranteed by the United States, which means that if the Federal Farm Mortgage Corporation should ever be unable to meet the payments on the bonds, the Treasury will assume such payments.

These bonds will be issued in denominations of \$100, \$500 and \$1,000. However, amounts less than \$100 will be disbursed in cash. For example, a loan of \$965 would be made in a \$500, four \$100 bonds and the rest in cash. In addition, to provide for certain debts, such as taxes which cannot be paid in bonds, cash covering the required amounts will be provided.

"Loans which have been applied for and approved, but on which cash has not been paid out, as well as those approved by the banks in the future, will be financed on the above basis. This arrangement in no way disturbs or alters the other provisions of the loans. The interest rate on new loans will continue to be 4 1-2 per cent for the emergency period when made through a national farm loan association and 5 per cent when made directly by the bank."

BUSINESS WOMEN

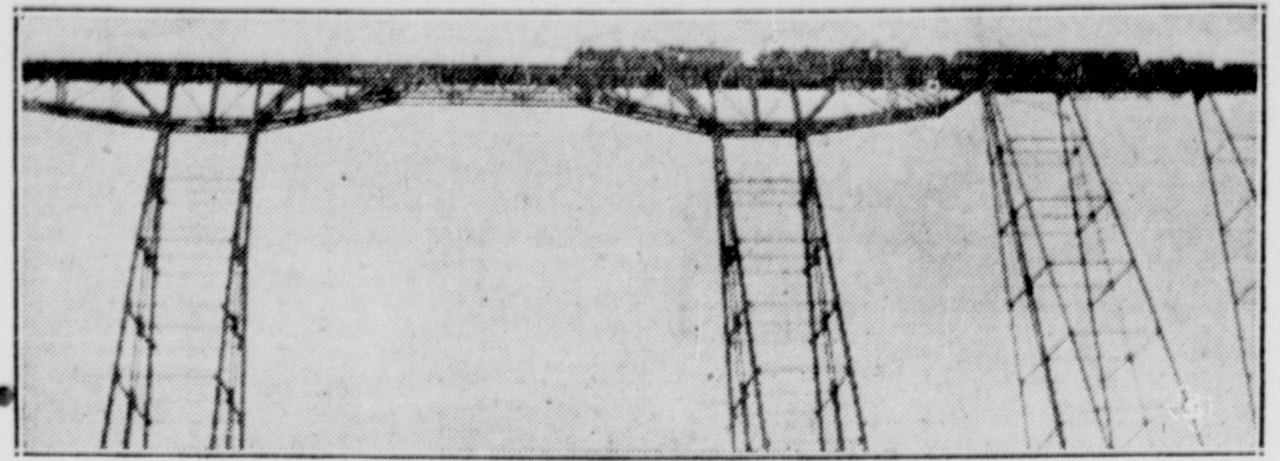

A Texas program was given Tuesday evening when the Business and Professional Women's Club held their regular meeting at their club rooms. The president, Miss Ann Stallworth, presided, opening with club songs. Special committees made their reports. Chairman of the play to be given by the club at an early date, Miss Louise Lanham, reported that the cast had been selected and were ready for rehearsals.

Instead of roll call, the program chairman, Miss Louise Green, gave a laughable take off on each member of the club in a delightful little story.

Miss Green presented Miss Dora Emily Moore who presented four of her Blue Bonnet Choral Club members, Misses Dell Horstmann, Caroline Cheeves, Patsie McGregor and Winonah Slaughter who rendered Texas songs.

Mrs. Jeff T. Kemp read a paper

World's Highest Railroad Bridge Is Across Pecos River

Here is a photograph of the world's highest railroad bridge. It is across the Pecos River west of Del Rio, Texas. The Pecos cuts a great canyon through the wasteland west of Del Rio and this bridge, 312 feet above the level of the river, is truly one of the Texas wonders.

on Milam county and Cameron. This included names of many early pioneer settlers, giving dates and events calling attention to many of their descendants now living in and around Cameron. The paper marked research work and careful preparation.

*Closing the program the hostess

Miss Lanham, invited guests into the dining room where she served a party plate consisting of congealed nut salad on lettuce leaf, sandwiches, strawberry short cake topped with cream, and hot coffee.

Native wild flowers adorned the

tables and lent spring time air to the rooms.

Guests of the Club other than those taking part on program were: Miss Amy Wade, Miss Ethel Skelton and Mrs. Legacy, sister of Miss Rose Rischar.

The only low-priced car
with fully-enclosed Knee-Action Wheels
and what a difference that makes in performance and dependability

Simple as a Shock Absorber!

Chevrolet's "fully-enclosed" Knee-Action is in reality a gigantic "shock absorber," built solidly on to Chevrolet's big, heavy frame, with the front wheel anchored to the "shock absorber" arm. The result: When the front wheel comes in contact with a bump or hole, it rises or falls to absorb the shock.

Farm Loans

Private Money to Loan at low interest rate on improved farm lands.

In a Chevrolet, you not only get the gliding ride at its best, you also get several other Knee-Action advantages not found in any other low-priced car! The reason: Chevrolet's Knee-Action is of a very special kind. The patents on it are held exclusively by General Motors. In this construction, the coil spring, which is the heart of the mechanism, is safely and solidly enclosed in a heavy steel housing to keep out dirt and flying stones. What's more, the design of this type is such that the steering mechanism is completely divorced from the spring action, the result being a new and welcome type of shock-proof steering.

Compare Chevrolet's low delivered prices and easy G.M.A.C. terms. A General Motors Value

Admittedly these "fully-enclosed" Knee-Action wheels are more expensive to produce than other types. But Chevrolet feels that the extra satisfaction thus assured for Chevrolet owners is well worth the extra manufacturing cost. And this same attitude is responsible for the presence of many other "fine-car" features in the new Chevrolet: the large, roomy Fisher body. The new Y-K frame. The cable-controlled brakes. In fact, everything about this automobile reflects Chevrolet's well-known policy: to build the most cars, by building the best cars of low price!

sends greetings to his many friends and asks them to help him in his race for the Democratic nomination.

Mr. Newton, as a democrat, would at all times represent the entire citizenship of the county and pledges his every effort to serve the people in every way their interests dictate. He believes in the principles of the Democratic Party and is in thorough accord with the administration in Washington.

He is young and aggressive and his abilities would be at the disposal of the people whom he would represent. He would especially serve to safeguard the interests of taxpayers and keep down the expenses of the state government by voting against all unnecessary appropriations.

Mr. Newton plans to make an active canvass of the voters and to discuss with them their problems of government and give them the benefit by frank discussion of all issues, his beliefs and policies. He is courageous and capable and by reason of his experience has developed a careful plan of service which he and his many friends believe will be both beneficial to the state and to the people of Milam county.

He asks his friends to lend their active support and pledges them a service commensurate with the responsibilities imposed by the office.

CARD OF THANKS

We wish to express our sincere thanks and appreciation to our neighbors and friends for their acts of kindness and words of sympathy during the recent great bereavement in the death of our beloved father, Ed. Kuhn, Sr. We want to thank Dr. Monroe and Dr. Crump, and we thank those who gave flowers and all who in any way assisted us.

CHECKS DUE FARMERS

Federal government checks due Milam County farmers who reduced corn acreage and curtailed the pig crop, will amount to about \$43,000. The checks will begin arriving about June 1. About \$20,000 will be paid in June, and \$10,000 in September and the balance in December, it was said by Geo. Banzhaf, county agent.

fice prior to their nomination in the Primaries, but are pledged to support the nominees of the Democratic Party.

Mr. Dossett said the club membership roll is open to women as well as men and no age limit is imposed as to membership. No one over 40 years of age may hold office. Membership is obtained by payment of a 50c fee. Of this amount 15c remains in the local club, 10c goes to the National headquarters and 25c remains in Texas.

At the close of the address by Mr. Henderson, the committee on nomi-

nations made its report. The Committee was composed of J. B. White, Chairman; E. B. Camp, Joe Cahill, Judge John Thweatt and L. S. Cunningham.

Mr. Law in accepting the presidency of the club declared the need for party loyalty and co-operation and pledged himself to work for the success of the club. Mr. Law served as Chairman of the committee to frame the constitution and presented the document to the convention.

Among the speakers during the evening were: State Senator W. R. Poage, Emory B. Camy, representative; Sam Hefley, former representative; Mrs. Kathryn Robbins, county superintendent; Mrs. John Cecil Culpepper, Mrs. J. H. Thomas, J. B. White, Chairman Milam County De-

W. A. Morrison, City Attorney elect for Cameron, presented the resolutions to the convention.

It was believed the club would have one hundred members or more to begin its charter.

Secretary Dossett said charter would be applied for at once and membership cards circulated for signatures.

President Law urges Democrats, old and young, men and women alike to join the club and to lend their support to them and that it will meet all expectations as to strength and service to the party.

Near the close of the meeting all officials by invitation of Mr. Law, came to the front and were greeted by the members and given applause.

New Relief

(Continued from page 1)

to actual relief requirements for each particular individual employed. Pay to persons not eligible for relief, or to relief clients in excess of the requirements of the individual family will not be approved in Austin. The new work card, though similar in form, will permit the definite placing of responsibility and indicate who is at fault if a client is allowed to earn from relief funds more than his relief budget requirements.

Staff Auditor E. E. Morgan of the Texas Relief Commission announced today, after a conference with County Relief Chairman Stanton E. Dossett of the Milam County Relief Board, that a thorough study had been made of Milam County Relief problems and the new system installed. Marvin Sykes will take charge of the new set-up here effective April 1, as certifying Officer under W. I. Clark, Jr., Administrator.

Chief Auditor Donnell emphasizes that this is a relief program not a project program. Under the CWA, group employment was provided which approximated current business wages, whereas the present relief program can only supply relief to the destitute. When building of roads, schoolhouse construction or other projects takes the place of the first objective, that of giving relief, the relief program has gone astray, and such expenditures constitute an erroneous expenditure of funds according to the terms of the Relief Acts under which relief funds are made available.

Chalk Cliffs in Denmark

Rise Straight From Sea

Geologically speaking, Denmark owes its existence to the mountains of Norway. Every stone in Denmark once was a tourist from Norway, arriving with the glaciers on a submarine reef of chalk and lime, until in a manner similar to the building of the Newfoundland sandbanks by the icebergs from Greenland, Denmark emerged.

This fact explains one of the most beautiful sights in the country—coasts of fantastic chalk formation in many places. The grandest of these formations is Moens Klit, and described as "the gem of Denmark." This is a range of white chalk cliffs 400 feet high and about five miles in length rising straight from the sea. The top is forest clad and extends in places to deep gorges which split up the masses of chalk, making points and pinnacles of weird loveliness, everywhere. The union of white chalk, green trees and vegetation and blue sea is most picturesque, especially if you view the whole from a passing steamship, at the hour of the setting sun.

It has now stood for thousands of years, but from time to time large masses go back to the sea, as when the well-known "Queen's Chair" formation fell in 1868, making a temporary island off the coast about 700 feet long, which has since disappeared.

Smallest Fly Biggest Enemy

Of the insect pests that have proven themselves enemies of man some are remarkably small for the damage they can do. Such is the case of the chalcid fly which, although the full grown insect is smaller than a single seed of clover or alfalfa, can cause serious trouble in a field of either of these crop plants. For each chalcid fly egg is deposited in a seed of clover or alfalfa while the seed is still soft and green and the grub hatching from one of these eggs eats all of the soft juicy tissues with which it finds itself surrounded. It then uses the hollow shell of the seed as a shelter in which to pupate and does not emerge therefrom until it has gone through all the changes necessary for it to become a fully developed fly. This means that as soon as it leaves the seed in which it was hatched it is ready to start at once propagating its kind to the ruin of more seeds.

Statue of Man Resembles Many

The question of who was the sculptor's model, so often asked since the dedication of the Scottish-American war memorial in Edinburgh, Scotland, has been answered. At the sixth commemoration ceremony of the piece Dr. Tait McKenzie, the sculptor, explained that it is not the portrait of any individual, but an expression of the idealism of youth which gives a family likeness to people of varied lineage. To illustrate the universal trait depicted, it has been shown that a photograph in an American office is so much like the statue that it was believed to be that of the model. An American mother seeing the statue thought it was that of her son. A German doctor often journeys to Edinburgh to view what he declares to be a striking resemblance to his lost son. Others from other countries have seen a likeness to lost relatives.

A few years later that office was filled by another Civil warrior, Sul Ross. He too was of Waco. In the most historic of campaigns, in 1920, the late Joseph Weldon Bailey was defeated in the race for Governor by Pat Morris Neff, also of Waco. At the present crux in state affairs an outstanding candidate is Lieut. Gov. Edgar E. Witt of Waco.

A pretty Rainbow party was featured when Mrs. George Childress, Jr., entertained the contract bridge club at her home.

Pear blossoms lent a spring-time effect throughout the home, appearing in baskets, vases and bowls. Five tables were arranged for games with attractive accessories.

Closing the games Mrs. Oxshier Smith won highest points, with Mrs. Rush Thomas second highest. Mrs. W. A. Bonds won the table cut, all receiving novelty articles.

The hostess served her guests Parfait and moulded chicken at the close of the games.

DIZZINESS

relieved by Black-Draught

"I decided to take Thedford's Black-Draught, as I had been having bilious spells," writes Mr. Charles E. Stevens, of Columbus, Ind. "When I get bilious, I feel sleepy and tired and do not feel like doing my work. It is hard to tell how I feel, but I do not feel good. I get awfully dizzy. I know then that I had better take something. After I found how good Black-Draught is, that is what I have used. I guess it rids me of the bile, for I feel better—don't feel like I am dropping off to sleep every time I sit down. That, to me, is a very bad feeling." Now you can get Black-Draught in the form of a SYRUP, for CHILDREN.

Child Welfare

PROCLAMATION

By the
Governor of the State of Texas
To all whom these presents shall
come:

Texas has a law less than one year old which attempts to give hospitalization, treatment and care to her more than twenty thousand (20,000) Crippled Children. It is a Herculean task. The public has hardly had time to acquaint itself with the purposes and provisions of the law. Certainly the appropriation of ten thousand dollars (\$10,000.00) per year, for the biennium, alone, would not go far toward meeting the demands of the law. Society has a responsibility in expanding the State's program. Civic, social, religious and fraternal organizations and individuals, rich and poor, must come to the State's assistance.

The Texas Society for Crippled Children, Incorporated, is leading the way. It has inaugurated a White Cross Seals Campaign to raise funds for augmenting the States appropriation. The seals sell at one cent each,

and are at such price and in such quantity as that one may buy according to his means. The school child's penny or the widow's mite will mean quite as much to the cause as larger amounts from those more able.

We cannot afford to lag behind other more progressive and more humanitarian states. The work should be given enough support and momentum in the beginning to send it triumphant on its way.

President Franklin Roosevelt said: "Today we are reaching out into the highways and byways, the back country districts, the slums of the cities, so that there shall be no forgotten child. It is our responsibility to rehabilitate the body and to so adapt the mind that every crippled child may become in some degree a useful and practical citizen. There is no work anywhere that is more useful, economic, or humane."

The limit of crippleddom in this State in the future depends upon you and me. It should be our aim and privilege to hospitalize every handicapped child in Texas, for whom there is a spark of hope, regardless of color or creed.

As Governor of this State, I therefore, proclaim the month of April to May 1, as White Cross Seals Campaign Month.

In Testimony Whereof, I have hereunto signed my name officially and caused the Seal of State to be impressed hereon at Austin, this the 19th day of March, A. D. 1934.

(Seal of State)

MIRIAM A. FERGUSON,
Governor of Texas.

W. W. HEATH,
Secretary of State.

Mrs. Sallie Boltzer of Dallas, State Field Director, and Mrs. Florence Dickens of Waco, District Deputy of the Womens' Benefit Association, were here Wednesday and met the local W. B. A. at the Bigbee House.

O'NEAL-SHAFER

Miss Melissa B. O'Neal and S. H. Shafer of San Marcos were quietly married Friday evening, March 30, at 8 o'clock at the home of Mr. and Mrs. N. D. Timmerman. The ring ceremony was read and witnessed by Miss Elnora O'Neal, sister of the bride.

The wedding was the culmination of a romance begun while both were in college at San Marcos three years ago. The bride is the daughter of Mr. and Mrs. A. R. O'Neal of Cameron, and for the past two years has taught school at Sneed-Kacer school. She was attractively dressed in white crepe suit with white accessories. She chose as her going away dress a navy blue suit with hat and shoes to match.

The bridegroom is the son of Mr. and Mrs. R. K. Shafer of San Marcos, and was reared in that city. He is employed by a large business concern in that city.

After a few days of honeymooning in Houston and Galveston they returned to San Marcos where they are making their home at 739 North Austin Street.

Friends in Cameron received the announcement of the birth of little John Davis Wimberly, young son of Mr. and Mrs. Perry Wimberly of Los Angeles, California, born March 21. He weighed 8 pounds. The mother will be remembered as Miss Lucille Hobbs Hooks and formerly lived in Cameron.

Helped By Cardui

Here's the true story of how Cardui helped Mrs. H. E. Dunaway, of McComb, Miss., as written by herself:

"I was sick and rather discouraged. I was so weak and thin, I was not able to do my work as it should be done. This made me fret a good deal, and did not help my condition.

"I had pains across my back and lower part of my body. My nights were spent in rolling from one side of the bed to the other, hoping I would soon go to sleep. Then when morning would come, I would be just as tired as when I went to bed. A neighbor, seeing how badly I felt, told me to try Cardui. After I had taken one bottle, I was much better. I kept on taking Cardui, and I was stronger and slept much better at night."

S. B. EVANS

S. B. Evans, who is pictured here with one of the page ads he runs in the Honey Grove Signal-Citizen, sells more groceries than any other merchant in Honey Grove, Texas. He has run a full page ad every week for 114 consecutive weeks in the Signal-Citizen. Five years ago he began running a quarter-page every week; a year later he jumped to half page, and did not miss an issue for two years. Then he went to a full page. Evans admits to Hugh Moyer, Signal-Citizen publisher, that he has made plenty of money against all kinds of competition, and in spite of hard times. (Texas News Photos.)

... reduces cultivating costs by one-half

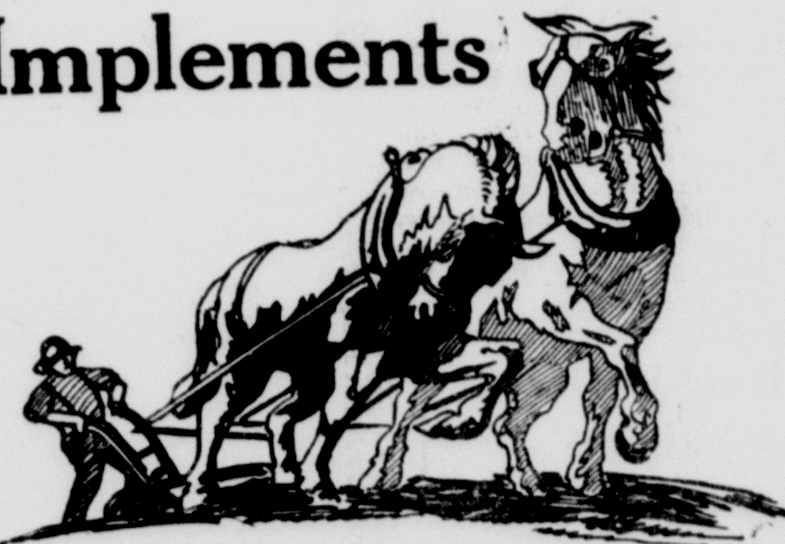

WHETHER you do the cultivating yourself, or hire a man—the time spent at the job means dollars, for other profitable work is waiting. This McCormick-Deering cultivates two rows at one operation, reducing time and labor costs by one-half. This is the implement you need if you want to do your cultivating in a hurry between rains.

This fine McCormick-Deering is also an easy implement to operate. You can dodge hills or stalks as easily as with a single-row cultivator because the gangs shift in pairs. At the ends of rows you can swing around quickly, for the gangs also lift in pairs.

We have this cultivator on display at our store now. Why not come in and see it? And remember that our line also includes McCormick-Deering 1-row cultivators and 2- and 4-row Farmall cultivators.
